

Dr SMCSI Medical College & Hospital, Karakonam
Department of Community Medicine

A two days workshop on research methodology was organised for the undergraduates of 2017 MBBS Batch on 12th & 13th of February by the faculty & PGs in the Department of Community Medicine under the guidance of Dr. S. Blessed Singh, Professor & Head of the department. 134 students participated in the same and were oriented on different aspects of writing the proposal. Students were facilitated by the faculty in small groups to write the proposal selecting topics of their choice. This workshop was a great success as 11 proposals were prepared by the students under the guidance of the faculty members. It has motivated the undergraduates to be young researchers in medical field as the motto currently goes as "Publish or Perish".
